if you would like more training
and a registration fee would apply.

22nd Annual California Unified Program Annual Training Conference

Session for Businesses

**Attend this training session
at no cost!**

At this year's annual CUPA conference, we will feature a no-cost training session for businesses that generate hazardous waste.

The training will cover the basics of identifying what is a hazardous waste, proper labeling and accumulation requirements, and record keeping requirements.

An overview of RCRA waste vs. non-RCRA waste and generator status (LQG, SQG or CESQG) will also be covered.

Participants will receive a comprehensive course manual and a certificate of completion.

Sponsored by and presented by:
California CUPA Forum and NES, Inc.
